Event Liability Insurance

When hosting potentially hazardous events on campus, non-University organizations are required to provide the University with a certificate of insurance from a company licensed to conduct business in the state of Florida. This requirement further specifies a minimum General Liability coverage in the amount of \$1 million per occurrence, listing UCF Board of Trustees as “Additional Insured” and Risk Management as the “Certificate Holder” (ref. [UCF-4.0292](#)).

Below is a list of Event Liability insurance carriers who may be able to provide the required insurance. This is not meant to be an exhaustive list, nor does the University endorse any of these insurance carriers. This list is meant to assist non-University organizations with a starting point to secure the required insurance.
