**Section 3: Sub-Contractor Information (use back for additional subs)**

Sub-contracted service(s) to be used	Sub-Contractor's Name/Contact Information

<b>Section 4: Environmental Responsibilities</b>	
Contractors acknowledge receiving or were made aware of UCF's applicable system procedures and work practices.	Hazardous materials brought on-site by a contractor require prior approval by UCF's EHS Department.
Contractor understands that the facility may interrupt activities that violate facility policies. After hours work schedules may be required for activities where hazardous materials are used.	Contractors shall ensure properly labeling, storage, and disposal of all their hazardous material/waste used on-site in accordance with facility procedures and all legal requirements.
Contractor/subcontractor shall provide adequate spill release prevention. Spills and other releases to the environment must be immediately reported Project Manager and EHS. All spills released by the contractor/subs must be cleaned, at the expense of the contractor, before finalizing services at UCF.	Where storm water permits are required, contractors are required for submitting NOI, preparing and posting SWPPP's, performing applicable inspections, and submitting documentation to the Project Manager and UCF's Storm Water Coordinator.
<b>Section 5: Agreement of Environmental Management System</b>	
I have reviewed and understand the information contained in this document. I also understand that University of Central Florida personnel have the right to inspect our activities and those of our subcontractors with regards to our on-site activities. I further understand that activities pertaining to service and/or maintenance contracts may only require submission of this form on an annual basis.
